 Mr. N. Krishnappa, Amildar, Chamrajnagar Taluk.
 Mr. Narasanna, Amildar, Nanjangud Taluk.
 Mr. Tirumalachar, Amildar, T. Narsipur Taluk.

Non-Official Members.

Mr. Amble Annaiya Pandit, Mysore.
 Mr. Sivoji Rao, Landholder, Yedatore.
 Mr. Rangaiengar, Landholder, Heggaddevankote.
 Mr. Narasimha Upadhya, Inamdar, Bettadapur, Hunsur.
 Mr. Mastan Saib, Merchant, Nanjangud.

ABSENT.

Lt.-Col. P. H. Benson, Civil Surgeon.
 C. Madhava Rao, Esq., Offg. Executive Engineer, Mysore Division.
 P. Panchanatha Rao, Esq., Senior Assistant Commissioner.
 Mr. T. Ramachandra Rao, Amildar, Heggaddevankote Taluk.
 Mr. Davud Khan, Pensioned Amildar, Mysore.
 Mr. Srirangachar, Jodidar, Sosale.

1. Read statement of expenditure on works executed by the Public Works Department for the four months ending 31st January 1895. The statement showed that a sum of Rs. 6,517 was spent on original works, Rs. 12,424 on repairs, and Rs. 4,727 on establishment, for the seven months from the beginning of the current official year. The percentage of total expenditure to the grant was 55.9. The Board approved of the same.

2. The statement of expenditure on works executed by the Revenue Department was next placed before the Board. It embraced the same period of seven months and showed that the sum of Rs. 3,149 was spent on well-works, &c. The Board was rather dissatisfied that in the Yedatore and Heggaddevankote Taluks no attempts had been made to undertake new works, and resolved to call upon the Amildars of those Taluks to exert themselves in this respect.

3. Read G. O. No. 11033—L. F. 46-94, dated 17th January 1895, declining to sanction the estimate for Rs. 1,367 for the construction of side-drains in the village of Hanasoge, Yedatore Taluk, with the remark that, if the village was large, arrangements should be made for making it a Municipality.

Resolved that the same be recorded.

4. Read G. O. No. 12127-35—L. F. 129-94, dated 13th February 1895, directing that estimates for all 'original works,' costing Rs. 200 and upwards, to be carried out by the Revenue Department, be sent to the Executive Engineer for opinion and remarks, before submitting them to Government for sanction.

Resolved that the same be noted for future guidance.

5. Read G. O. No. 12534-44—R. F. 116-92, dated 24th January 1895, requesting to report whether 'Government Topes' would not be better maintained if they are made over to District Fund Boards, the cost of their maintenance being met from the income of the topes and other funds at their disposal.

The Board thought that the suggestion was a good one, and resolved that the same be adopted and the formal sanction of the Government obtained therefor.

6. Read Docket No. 11339—L. F. 46-94, dated 24th January 1895, from the Chief Secretary, requesting to be informed how it is proposed to maintain the cleanliness of the drains, after they are once built, at Hulahalli, Nanjangud Taluk, with reference to an estimate for Rs. 301 submitted for sanction.

The Amildar represented that the village servants would attend to the up-keep after they are constructed; and the Board resolved that sanction of the Government be obtained at an early date for the estimate under the above representation.

7. The following papers were also placed before the Board and recorded :—

- (1) Order No. 323, dated 21st January 1895, sanctioning the establishment of a cattle-pound at Gulavina Attikuppe, Yedatore Taluk;
- (2) Order No. 229, dated 21st January 1895, sanctioning the temporary Patel at Yediyur, Ramasamudra Hobli, Chamrajnagar Taluk, to be in charge of the cattle-pound there as the permanent Patel is dead;
- (3) Order No. 169, dated 21st January 1895, sanctioning the purchase of one acre of land instead of 2 acres and 30 guntas as proposed by the Amildar, for the construction of a Musafarkhana at Kowlandi, Nanjangud Taluk;
- (4) Order No. 170, dated 21st January 1895, sanctioning a supplemental estimate, amounting to Rs. 58, from District Funds, for sinking a well at Hadya.

8. Read Executive Engineer's Docket No. 327—103, dated 28th January 1895, proposing certain modifications as noted in the margin in the District Fund Budget for 1894-95 to meet the present requirements of the annual repairs of Hunsur-Begur road and Mysore : Talkad-Sivasamudram road.

Resolved that the same be approved and application be submitted to Government for sanction.

9. Read Government Proceedings No. 9877-85—R. 1489, dated 14th December 1894, directing the employment of Tank-Inspectors and Sub-Overseers only on work connected with the restoration and improvement of tanks and prohibiting the use of their services on Local Fund and Municipal works.

In this connection, all the Amildars present said, that it was not possible for them to prepare estimates for wells and other works, or get them executed without any professional agency, and that the Tank-Inspectors and Sub-Overseers are not used to the prejudice of their proper work.

As there were many works to be carried out from District Funds, in connection with sinking wells, repairing drinking kattes, constructing chavadis, and other matters of village sanitation, it was proposed that it was very necessary to obtain the sanction of Government to entertain a temporary Taluk Mestri for each Taluk on salaries of Rs. 15, 12, or 10 a month according to the amount of work of each Taluk.

10. Read Hunsur Taluk Amildar's report No. 928—1226, dated 1st March 1895, submitting for sanction a revised estimate, amounting to Rs. 646, for sinking a well at Bettadapur.

It was explained to the Board that the Sub-Overseer to whom the correspondence was referred for a report, after inspecting the place, reported that the work was quite necessary.

Resolved that the supplemental estimate be passed and submitted to Government for sanction.

11. Read office memo bringing to notice the increase of work in the Local Fund Department of the District office for the following reasons :—

- (1) the preparation and checking of estimates of well and sanitary works;
- (2) the various monthly and annual forms of accounts prescribed by Government;
- (3) the increase of the number of meetings and the general increase of correspondence.

The President explained to the Board that recently, on a requisition to the Chief Engineer with regard to increase of work in that branch, the establishment of that department was raised, and that correspondence in the Local Fund Branch is heavier than in the other branch; and the proposal was carried that the Government be requested to sanction the entertainment of two hands, on Rs. 25 and Rs. 15, to cope with the increased work, in lieu of the present establishment of one clerk on Rs. 20.

12. Of the absent members, Mr. T. Ramachandra Rao, Amildar, Heggaddevankote Taluk, wrote, explaining that he was unable to attend the meeting on account of the Huzur Jamabandi of the Taluk. Of the other members, Mr. Srirangachar intimated that he was at Thindivanam in the Changanpet District for treatment of his eyes. Mr. Davud Khan could not be served with intimation of the meeting as he was absent from Mysore.

The meeting began at 3 and closed at 6 P. M.

ABSENT.

- Lieut.-Colonel P. H. Benson, Civil Surgeon, Mysore.
- P. Panchanathia Rao, Esq., Town Magistrate.
- Mr. M. A. Tirumalachar, Amildar of T. Narsipur.
- " Sivoji Rao, Land-holder, Yedatore.

1. Read statement of expenditure on works executed by the Public Works Department which was recorded with the following observations by the Board.

- (1) Among the original works, improving the first section of Gundlupet-Chamrajuagar road, which was begun in 1890-91, has been completed. The aggregate cost of the work amounted to Rs. 18,163 against an estimate of Rs. 18,741.
- (2) The grant during the current year, for improving the drainage of T. Narsipur-Chamrajuagar road, was Rs. 3,000 whereas the expenditure up to the end of March 1895, as per statement furnished by the Executive Engineer, comes to Rs. 4,040 exhibiting on excess expenditure of Rs. 1,040 over the grant.

It was resolved to call for a reappropriation statement from the Executive Engineer, for submission to Government for sanction of the excess expenditure.

2. Annual maintenance of roads.

- (1) The total expenditure on original works from the beginning of the year till the end of March 1895, was Rs. 7,393 out of a grant of Rs. 10,900.
- (2) The Amildar of Yedatore, brought to the notice of the Board, that the Yelwal-Hassan road, was not in good order, although a sum of Rs. 1,239 appeared to have been spent on it. Mr. Karve, represented that gravel was being collected, and that the repairs remained yet to be executed.
- (3) With regard to Mysore-Talkad-Sivasamudram road, the President, observed that the tunnel near the 15th mile, where the road suddenly turns, is without any parapet, and that consequently, carts passing the road during dark nights, are liable to accidents. Mr. Karve, said that he would inspect the spot alluded to by the President, and do the needful to ensure protection to carts.

3. The total expenditure on "repairs" till the end of March 1895, was Rs. 14,261 out of the grant of Rs. 21,868.

The statement of expenditure, on works executed by the Revenue Department, was next read to the Board. It was observed that the sum of Rs. 1,825 had been spent during the two months of February and March 1895, the total outlay from the beginning of the current year, being Rs. 5,246. It was reported by the Amildars, that many of the works already sanctioned had been taken in hand, and were progressing rapidly, though no measurement had been taken, or payments made.

4. Read Government order No. 16732-4—L. F. 229-93, dated 9th April 1895, approving of the Board's resolution, dated 9th January 1895, sanctioning the excess allotment of Rs. 368 for the maintenance of the Hunsur-Begur road, over the budget provision of Rs. 2,760.

Resolved that the same be recorded.

5. Read and recorded Government order No. 13327-8—L. F. 357-92, dated 2nd March 1895, issuing instructions in regard to the construction of female dispensaries, with accommodation for in-patients.

6. Read Government order No. 17466—L. F. 386-92, dated 17th April 1895, declining to sanction the appointment of a 2nd Clerk, for the Local Fund Department, as proposed by the Board, and on 8th January 1895.

Resolved that the same be recorded.

7. Read Chief Engineer's Circular No. 17, dated 12th March 1895, remarking that village roads should not be constructed as their maintenance in future, would be very difficult and stating that tunnels over difficult nallas crossing a track, may be constructed where necessary.

The Board observed that the suggestion was a good one, and resolved that in future, no village roads should be constructed, until the importance of the road and the question of future maintenance, were satisfactorily settled.

8. Read Executive Engineer's docket No. 803—251, dated 6th March 1895, forwarding for sanction, an estimate amounting to Rs. 1,400 for preparing 20 stone rollers, for the use of District Fund roads in the circle.

In this connection, Mr. Karve, also explained that during the rainy season, gravel roads often come very wet and impracticable for carts. It was not possible to get them properly rolled, if stone-rollers were not ready at hand, and proposed to keep one at intervals of 5 miles, along the entire length of District Fund Roads.

The Board observed that there was a total length of 364 miles of road, to be maintained by the District Funds, and that there were only 2 or 3 rollers available, and resolved to sanction the estimate for 20 rollers for the present.

9. Read Mr. A. Annaiya Pandit's letter, dated 15th April 1895, proposing that compound walls and iron pulleys may be put up to public wells in Towns and Villages, as far as possible in order to prevent accidents. The other member also agreed that it would be a great convenience and it was resolved that the proposal be approved, and given effect to.

10. Read letter from the same gentleman, requesting that Amildars might be instructed to examine the sites and make trial pits, before submitting to the Board estimate for wells for sanction.

It was remarked that as a rule, the experience of the locality and the nature of adjacent wells if any, should be a guide in the selection of sites and that it was not desirable to spend any amount of money on trial wells. But, whenever any estimates for wells have been sanctioned, the Amildars should invariably sink only small wells as a trial, and then enlarge them, if they find that they can be completed within the estimates. If they should strike difficult rock near the surface, or see reason to apprehend that no springs may be tapped, they should at once abandon the project, or stop them pending further orders, thus minimising the work of Government money.

11. Read letter from the same gentleman, proposing that a rule may be laid down, for a small remuneration being given to midwives when they attend cases of labour, in well-to-do families.

The Board remarked that in Government order No. 4629-40—L. F. 55-93, dated 7th September 1893, an allowance of eight annas, has been sanctioned for every case attended by a midwife, over and above four cases in a month, in the Malnad Taluks, and 5 cases in the Maidan Taluks besides a mileage of two annas, for distances travelled beyond 5 miles from the Taluk Head-Quarters.

Resolved that Amildars be directed to give due publicity to the Government order above referred to.

12. Mr. A. Annaiya Pandit, then proposed that in place of pakka masonry tunnels across Jungle streams, and nallas on the T. Narsipur-Santemarahalli road temporary culverts might be put up with rough stone abutments and wooden logs covered with gravel on top.

The Executive Engineer was consulted by the Board, on this point, and it was resolved that the estimates for three such tunnels might be prepared and submitted to the Board for consideration.

13. Read T. Narsipur Taluk Amildar's report No. 337—341, dated 11th March 1895, submitting for sanction two estimates, aggregating Rs. 403 for sinking a well and adding two rooms and a Kitchen to the newly constructed Musafirkhana at T. Narsipur.

Resolved, that the estimates be approved after reference to the Executive Engineer.

14. Read report from the same Amildar, requesting sanction for Rs. 500 for improving sanitation at Bannur.

Resolved that the detailed estimates be called for, from the Amildar.

15. Of the absent members Mr. Tirumalachar, Amildar of T. Narsipur, was unable to attend as he was engaged in the Police investigation of a murder case.

16. The meeting began at 3 P.M. and enclosed at 6 P.M.
